

liquid seaweed concentrate

THE GLOBAL LEADER IN AUXIN BASED SEAWEED PRODUCTS FOR OVER THIRTY YEARS

Source Fresh *Ecklonia maxima*
seaweed high in natural auxins

Harvesting Strip rotation ensures uniform
age and consistent biological activity

Process Unique cold
cellular burst extraction
maintains auxin dominance

Activity Auxin:cytokinin ratio
> 300:1 promotes prolific lateral
root development

KELPAK BENEFITS

- Increase in root tips improves:
 - plant nutrient and water uptake,
 - natural cytokinin production and subsequent foliar growth
- Reduces transplant shock
- Increases growth of seedlings and nursery plantouts
- Reduces herbicide stress and damage to row crops
- Increases photosynthesis and carbohydrate production
- Increases fruit set and fruit retention
- Increases fruit number, size, colour and sugar content
- Increased yields with better returns
- Improves shelf-life and produce quality during cold storage
- Kelpak organic approved formulation available (IMO/BCS)

Kelpak, a natural biostimulator extracted from freshly harvested *Ecklonia maxima* kelp, scientifically proven to increase the health, quality and yield in a wide variety of crops

AUXIN DOMINANCE PROMOTES ROOTING

KELPAK APPLICATION

- Seed coating
- Root dip
- Soil drench
- Drip irrigation
- Foliar spray (conventional, electrostatic or aerial)

OPTIMAL USAGE

- Do not dilute more than 1:500
- Do not over dilute with drip irrigation application
- Apply as a pulse during last 10 minutes of irrigation cycle
- Maintain pH below 7
- Do not apply more frequently than 14 days apart
- Do not apply as tank-mix with cytokinin-based products
- Compatible with most agrochemicals

**DROP FOR DROP THE
MOST EFFECTIVE BIOSTIMULANT**
